

Kicked On Their Way To Death Chamber

BELSEN 'BEASTS' SLEEPERS

ESSAYS ON 'BIS' SPIRITUAL'

From MACFEE KERR, Reuter's Special Correspondent
Lüneberg Saturday.

D. R. ADA BIMKO, Polish Jewess who survived internment at the Auschwitz and Belsen horror camps, said at the Belsen trial today that she saw **Josef Kramer** and **Irma Grese**, "Beast" and "Beastess" of Belsen, herding people to their deaths.

They both supervised the loading of prisoners on to lorries to be taken to the gas chamber at Auschwitz. Some of the prisoners, realising where they were being taken, made pitiful efforts to escape, she said.

"I saw Kramer ordering the prisoners to get into the trucks catching these prisoners. He hit and kicked them because they were not quick enough in getting into the trucks."

That was the sixth day of the trial of Kramer and the 44 men and women accomplices.

Dr. BIMKO said the gas chamber was used exclusively for "Jews, gypsies, Communists and the defence suggested that only persons listed as Class II and III were selected for the gas chamber."

Dr. BIMKO replied that she had seen quite healthy persons, some of whom were listed for discharge the next day, sent to the gas chamber. "One was a young woman, a Jewess, who was killed for cutting a piece of blanket for use as a shawl."

LAUGHTER IN COURT

There was laughter in the crowded courtroom when the witness, Dr. BIMKO, was asked some questions put by Capt. C. Brown, defence counsel.

Dr. BIMKO, a Polish Jewess, was asked by Capt. Brown, "Did you see any of the prisoners who were taken to the gas chamber?"

Dr. BIMKO replied that she had seen quite healthy persons, some of whom were listed for discharge the next day, sent to the gas chamber. "One was a young woman, a Jewess, who was killed for cutting a piece of blanket for use as a shawl."

To the defence of motorists who "take a drink and drive all the better for it," came a West End doctor yesterday. Some men, he said, could not drive capably without alcohol.

Better Drivers After A Drink!

SOME men better a car smother drive after they have had a glass or so of alcohol than in the normal state, declared Dr. Arthur Edmond, of Brynau Road, W.I., at Marylebone Police Court yesterday.

Dr. Tate was giving evidence in defence of William Henry Broughton, seventy-five-years-old manager of the "Goosey Gander" Club, Baker-st., W.I., who was charged with having driven under the influence of drink while in charge of a car.

Dr. W. A. Kennedy, police divisional surgeon, said the accused was unfit to drive a car owing to the drink he had taken.

Dr. Tate said Broughton suffered from duodenal ulcer and heart trouble. He examined him, he said, and found that he was in full possession of his faculties and capable of driving a car. He had great tolerance for alcohol.

Cross-examined by Mr. Sanders, solicitor for the police, the doctor said that being slightly under the influence of drink might make the accused a little more capable of managing a motor-car.

Mr. Sanders: Do you mean in ordinary way he would not be able to manage a motor car and could not be capable unless he had some drink? Dr. Tate: I am quite likely.

Mr. Sanders: Do I understand you to say he would be more capable of driving after a little alcohol? Dr. Tate: In the early stage he might. It is my opinion that some men do after some drink have a glass or so drive much better than in a normal state.

When, in 1940, plans were completed for flooding Britain, the first of the new flood barriers, the Marsh Folk, Kent, as an anti-invasion barrier, the marsh dwellers were told that if they could expect to reach safety across the Hythe Canal, Kent, this defence secret, where he opened his eyes, they were celebrating thanksgiving yesterday.
